

Task acceptance on ten development assets

One fresh 40-minute authoring attempt per arm; independent frozen evaluation.

Astra alone: 8/10 accepted With workflows: 2/10 accepted Eligible pairs: 9/10

Source asset	Astra Ultra alone	Astra Ultra + workflows	Pair eligible
Drawer cabinet	PASS	PASS	Yes
Circular conveyor	PASS	PASS	Yes
Refrigerator door	PASS	FAIL	Yes
Cam gripper	PASS	FAIL	Yes
Machine vise	PASS	FAIL	Yes
Beam engine	FAIL	FAIL	Yes
Thor robot arm	FAIL	FAIL	Yes
RC excavator	PASS	FAIL	Yes
Voron printer	PASS	FAIL	No
Dextra hand	PASS	FAIL	Yes

All 20 assigned attempts are shown. Pair eligibility comes from outcome-blinded protocol review.

Reused development assets and a repaired implementation. Five physical seeds test one authored output; they are not independent author replicates. The separately repaired drawer capstone is excluded.
